Professional experience

Atlas Biomed Group Ltd. (<https://atlasbiomed.com>) | January 2019 – present

Backend Development Team Leader

- Leading a team of 4 backend developers working on 5 in-house projects.
- Assist teammates in development efforts and provide mentorship.
- Participation in design and development of company's IT infrastructure.
- Develop the DNA interpretation system.
- Release management.
- Production incidents management.

Atlas Biomed Group Ltd. (<https://atlasbiomed.com>) | July 2017 – December 2018

Backend Developer

- Design and develop a new API for Mobile application using "Backend Driven UI" pattern.
- Design and develop a new API for B2B application.
- Participation in development of the DNA interpretation system.
- Participation in design of the new Perspective Data Interpretation System.
- System administration of company's servers.

OOO "Blogun" (<https://blogun.ru>) | November 2015 – July 2017

Backend Developer

- Maintenance of legacy backend platform.
- Design and leading development of the new backend platform.
- System administration of company's servers.
- Managing a team of 1 backend and 1 frontend developers.

Net4ALL.RU gaming community (<https://net4all.ru>) | September 2008 – April 2018

Owner and Technical Administrator

- Created the whole community from the scratch and led it for almost 10 years.
- Maintained project's infrastructure (websites, game servers, etc).
- Developed websites for accounting and online management of game servers.
- Developed modifications for game servers. The key challenge here was that game server is a single-threaded application and the resources of even the most powerful processors on the market were not enough to support all desired features.
